Professional Summary

Senior Full-Stack Engineer with a track record of shipping reliable end-to-end systems, now building internal platforms and design systems, moving toward **DevOps** and **Cloud**. Recent work spans PHP/Laravel, JavaScript/TypeScript and Python across the full web stack, owning each feature from data layer to UI. Comfortable collaborating across product, engineering and operations to deliver reliable software in varied business contexts.

Technical Skills

Languages: PHP, JavaScript/TypeScript, Python, SQL, Dart, Java
Backend: Laravel (primary), NestJS, Express, FastAPI, Livewire, Filament
Frontend & Mobile: Svelte, SvelteKit, Vue, Nuxt, React, Next.js, Angular, Inertia.js, Flutter
Databases: PostgreSQL, MySQL, MS SQL Server, MongoDB, Redis
Cloud & DevOps: Cloudflare (Workers, Pages, R2), Docker, CI/CD, Linux, Windows Server, AWS (S3, RDS, ElastiCache)
Tools: Git, Postman, Jira, GitHub Copilot, Claude

Professional Experience

Senior Full Stack Engineer (Remote) Aug 2026 – Present
JuegaEnLínea *Remote*

- Built the operator admin for the white-label payment gateway (**Svelte**).
- Consolidated the back offices onto one **Svelte** component library and a shared **Laravel 13** API.
- Led the build of a multi-domain landing page generator served from **Cloudflare Workers, Pages and R2**.

Senior Full Stack Engineer (Remote) Dec 2025 – Jun 2026
Crazy Imagine Software – Client: Little Taller *Remote*

- Built a support and notification system in **Laravel** + **Vue**, integrated with **HubSpot**.
- Delivered an **Inertia.js** + **Nova** knowledge base with full-text search and Markdown authoring.

Full Stack Developer / Development Consultant Oct 2024 – Dec 2025
TIENDAS DAKA C.A. *Naguanagua, Venezuela*

- Led 15 developers and delivered 6+ key projects in close coordination with stakeholders.
- Recovered and rebuilt a critical e-commerce platform with **NestJS**, **Next.js**, and **Medusa**, replacing a failing implementation with a maintainable architecture.
- Architected and built a technical-support platform with a **Laravel/Express** backend, **Livewire** frontend, and **Flutter** mobile app, integrated with SAP.
- Built a sales-quoting platform (**Laravel/Filament**) for mobile and tablets with direct SAP integration, delivered with a 3-person team.

Freelance Developer Dec 2022 – Sep 2024
Self-Employed *Remote*

- Improved performance and stability across **WordPress/WooCommerce**, **Nuxt**, and **CS-Cart**.
- Assessed, evaluated and recovered a headless e-commerce with **Odoo (Python)** backend and **Nuxt** frontend.

Full Stack Developer / Programmer Oct 2021 – Nov 2022
BIOMERCADOS C.A. *Valencia, Venezuela*

- Maintained a multi-platform headless e-commerce (30,000+ users) with **Magento 2**, an **Angular PWA**, and an **Express** API.
- Designed and deployed CI/CD with **Docker** and **Nginx** for the Express APIs and the Angular PWA.
- Performed RFM analysis on order data with SQL to inform customer segmentation and commercial decisions.
- Automated daily exchange-rate ingestion via web scraping, replacing manual entry and improving the accuracy of pricing decisions.

Education

Universidad Nacional Experimental Rómulo Gallegos (UNERG) 2016 – 2021
Information Engineer – Magna Cum Laude *Guárico, Venezuela*

IBM DevOps and Software Engineering Professional Certificate 2026 – Present
Coursera – IBM Skills Network *In progress*
